## Candidate for Business Analyst Professional

- Results oriented, data-driven, and motivated candidate, actively seeking to transition to a Business Analyst role with an organization seeking creative problem solvers who thrive in deadline-driven environments.

- Offers knowledge of analytics, reporting, and data visualization with experience working with structured BI data as well as large volumes of unstructured data and full-stack capabilities. Focused experience includes data collection and analysis work for the Athletics Department of a major public university.

## EDUCATION

**Bachelor of Science Degree in Information Management**
University of Colorado Boulder Leeds School of Business – December 2019
**Bachelor of Arts Degree in Psychology**
University of Colorado Boulder – December 2019
**Certificate in Data Science and Data Visualization**
Northwestern University – August 2020

## PROFESSIONAL EXPERIENCE

**LEADERSHIP AND CAREER DEVELOPMENT INTERN |** University of Colorado, Boulder, CO | August 2018 to August 2019

- Orchestrated and executed over 20 events for student athletes that provided a solid foundation for personal and professional growth.

- Innovated a database that tracked 336 student athletes across all University of Colorado sports programs, recording information that included event and pathway meeting attendance.

- Partnered with local companies to secure internships and full-time opportunities for student athletes following graduation.

**SPORTS GOVERNANCE ANALYTICS INTERN |** University of Colorado, Boulder, CO | February 2017 to July 2018

- Led end-to-end project management responsibilities supporting research studies on sports governance topics that included football participation and track & field records.

- Evaluated the governance platforms of each United States Olympic Committee through four domains - including transparency, democratic process, checks & balances, and solidarity.

- Assembled findings from this evaluation into a final report that compared each committee's governance platforms, which coincided with a study conducted by the International Olympic Committee, on sport governance.
